

Cricket Competition!

At the cricket tournament, we all had fun and did well. To get where the tournament was set, we used a coach that had a maximum capacity of 10 children. The first tournament was at Springwell School but the second was at Indian Gymkhana. We did really well in both as we got top 3 in both. Coach Michael and Mrs Vaqaas were very supportive as they trained us to be the best we could.

I love this piece of work because it is a summer poem and I have used lots of figurative language!

This is my favourite piece of work from class this term because I love maths and I had to add the pictures together to find the answer.

Sports Day!

On Monday 13th June, we celebrated Sports Day at Cranford Primary School. The sun shone brilliantly in the crystal, clear, blue sky. Students from Year 3 and 4 participated in various events, such as running, sack race, javelin and the egg and spoon race. We were all wearing our house colours that represented the elements: **Fire**, **Air**, **Earth** and **Water**.

We were all enthusiastic and engaged in the activities conducted. We gave it our best by pushing ourselves to our limits. There was music, cheering and applause. Our families got involved in the Mexican wave, which was amazing.

It was delightful to have our families come to our school and support and comfort us since we all felt nervous. They made us feel calm and relaxed.

Towards the end of the day, our families, coaches and teacher competed in the race, which was surprising yet exciting to watch.

On our way back home, we treated ourselves to a cone of ice cream.

A big thanks to Coach Michael for hosting and entertaining everyone during Sports Day. Also, to our teachers who made our day easier by watching over us.

Mrs Walia

In this report, I will discuss Mrs Walia and what she has done for all of the school and us. Also, the whole time she was here, she tried to maximise children's learning opportunities. In this paper, I will inform you about her and her amazing attributes.

Who is Mrs Walia?

Mrs Walia is the greatest head teacher I and everyone else could ask for. She has been here for over 20 years and has made a huge impact on CPS and all the children. She used to be head of the infants and she has 3 children. She originates from Kenya, is a vegetarian and her favourite food is lemon drizzle cake. She is caring and gives people a chance.

What was her goal?

Mrs Walia's goal for the whole school was to be put on the map. Well she succeeded and now our brilliant school is on Google Maps! Another goal of hers was to make all the children in CPS have an education. She made a huge difference to the school and we will remember her.

To conclude, I would like to say I will miss her and I am certain that everyone else will too. I have been here for 5 years and she has taught me excellent things. WE WILL MISS YOU!

By Muhammad

Mrs Walia has been at CPS for 20 years, she was always there and never gave up. When she was younger she wanted to become a nurse but she also wanted to be a teacher. Soon, she acquired the role of a teacher. Although of course she was accepted for the role of the nurse she had to decline because she was already a teacher. Lucky.

A few years later, When she was deputy she sat in the chair and said " what do I do now I have this large room? " then a little while later her job got harder and she found out how hard it was to be a deputy but this did not discourage her because she has also learnt that she can change children's lives for better. For this reason, she became Headteacher of Cranford Primary and never left. Mrs Walia has improved the school for the children by building adobe, MUGA, and Pavilion also new classrooms for 6.

We were very lucky to have her and will miss her a lot.

Year 5 Sienna Class,

ECO WARRIORS

This term we have been running gardening club at lunch times. Children from across the school have enjoyed taking part where they have completed activities to learn more about our planters on the field and how to take care of the environment. We have started to complete litter picks at lunch times where children have been responsible for keeping the school grounds tidy.

The Eco Committee members have been completing meter readings to keep track of the amount of electricity we are using during the day and night in school. From this, the children have learnt how to read electricity meters and understand the terminology related to electricity.

Across the school, the children have taken part in a battery hunt where children have brought in batteries to be recycled.

All children have thoroughly enjoyed taking part in Eco activities and completing Eco Challenges this year.
