

Careers Day!

In January, we had Careers Day. First, a pharmacist came. It was on a Zoom call and she told us a lot about her career. They have so many medicines for patients ready all the time. Secondly, a manufacturing engineer came to the school. He makes objects out of solid materials. For example, he makes plastic bottles or objects out of metal. Many more visitors came including a boxer and a radio DJ which was my favourite.

Right of the Term!

Indigo voted for this half term's article!

I voted for this because children have the right to their own religion. They should not be stopped from following their own beliefs and can follow what they want to.

By Jasgun

Article 14:

Every child has the right to think and believe what they want and to practise their religion, as long as they are not stopping other people from enjoying their rights.

The Last Piece of Chocolate

Once upon a time, there were two twins called Jasmine and Jasnoor. They both loved eating. Astonishingly, they did not know there was only one piece of chocolate left.

Once Jasmine was in the kitchen, she saw the last piece of chocolate and hid it. What she did not know is Jasnoor was watching her. Jasmine had to make a plan to go somewhere otherwise Jasnoor would have eaten it. So Jasmine left. Behind her was Jasnoor.

Finally, after an adventure, when they both other the chocolate, they found it was a 2 piece chocolate. They ate the chocolate together. After that, they went and got more chocolate.

- What is on in Early Years?
- Interviews with Mr Mariano!
- Careers Day!
- Spring 1 Learning!

Interview with our new teacher Mr Mariano!

Why did you want to be a teacher?

So I could impact children's lives.

What was your passion before teaching?

Dancing, acting and travelling.

What is your favourite thing about teaching?

The impact I have on children and receiving letters from them.

What is your favourite subject?

Maths and Science.

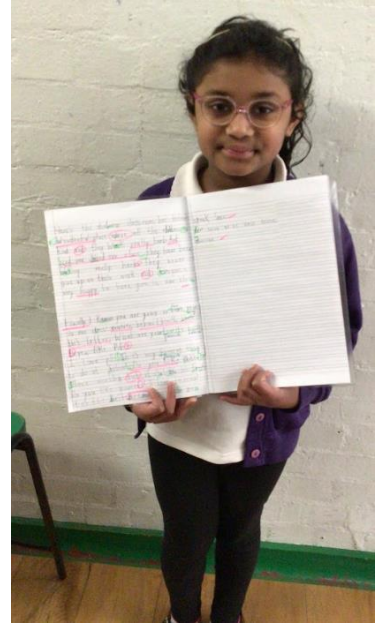

What did you want to be growing up?

An actor and accountant.

What would you want to be other than a teacher?

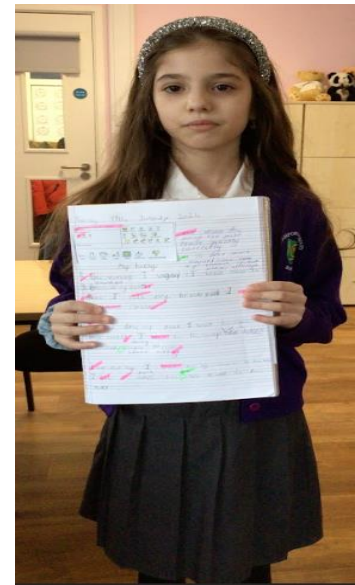

An actor.

By Abira and Declan

It is my favourite piece of work because I worked independently on my diary entry and used some good description.

By Jennifa

I like this work because I used some good sentences in my writing.

By Maria

Interview for Mr Martino! Sagaa

Year 5
Crimson
Sagaa

Marvellous Mr Martino!

① Do you like your career?

Yes he does he loves teaching with children

② What is your favourite job and why?

Teacher because you can help the children

③ What is your goal and why?

To be a good teacher and to help the children

④ When did you first like teaching?

About 5 years ago when he had to teach the children

⑤ How many schools have you taught?

5 different schools because he has to teach the children

Year 3 Spring 1 Learning!

I found an amazing rollercoaster in the amusement park.

Thimbling, I ran through the desolate forest. I found an giant oak tree. I climbed as fast as a cheetah. Once I reached the top, I struggled towards the edge. I lowered the sack of happy endings and slowly poured them out. They glitters away like butterflies. The owls were hooting, but their yellow eyes stared at me like demons. I slid down the trunk of the tree, my eyes felt heavy. I did all the work in my little hole, washed the dirty dishes, did the shopping and read an amazing, delightful book.

At dusk, I set off in the dark, deep forest and I saw a Jaguar. It was going to eat me!!! It was dark so I had to pour the happy endings. All of a sudden, a witch appeared. She shook me and took my bag!

By Alyssa

I went to the park it was a morning.

By Adam

Walking through the dark desolate forest, saying "hello" with a trembling voice. I saw two red eyes. I ran for dear life in horror with a terrifying body. I managed to get to the top of the tree and sales the happy endings. They went like silver.

Handwritten mathematical work on grid paper, including long division, fractions, and a comparison of Stone Age and modern food.

Long Division:

- a) $269 \div 445$ ✓
- b) $167 \div 596$ ✓
- c) $142 \div 378$ ✓
- d) $292 \div 2584$ ✓

Fractions and Comparisons:

- a) $\frac{1}{10} < \frac{1}{4}$ ✓
- b) $\frac{1}{6} > \frac{1}{7}$ ✓
- c) $\frac{1}{100} < \frac{1}{2}$ ✓
- d) $\frac{1}{2} > \frac{1}{3}$ ✓
- e) $\frac{1}{100} < \frac{1}{50}$ ✓

Stone Age vs. Modern Food:

The difference between the food in the Stone Age and the food now is that in the Stone Age people had to eat raw meat, nuts, berries and fruit whereas now we have pizza, burgers and chips. The difference between the clothes in the Stone Age and the clothes now is that in the Stone Age the clothes were made out of animal skin whereas now the clothes are made out of cotton, wool, leather and fabric. The difference between the tools in the Stone Age and the tools now is that in the Stone Age tools were made out of stone, teeth and bones whereas now the tools are made out of iron.

Early Years!

Early Years have been exploring different careers for Careers week! They have been doing lots of exciting creative activities!

Careers Day

Now I am a Cranford Pupil, in the future I want to be...

I want to be a pet keeper and work at the pet store.

By Zainab

When I grow up!

When I grow up, I want to be a footballer because I play for a football team and I am so good. My dad has been coaching my team for 3 years so that is why I want to be a footballer.

By Jayden S

When I grow up!

When I grow up, I want to be teacher because I like helping other people to learn and grow. I will work hard to be a teacher by working hard in school and focusing on my studies.

By Diya

Career Day!

You will not believe what kind of day I had!

As usual, I went to school and I was so excited to meet people with their amazing jobs! First, I met the head teacher's brother and his job is an engineer. He can also build his own tools! Then, we met an interpreter who speaks other language. After that, we saw a physiotherapist. A physiotherapist helps with back problems and any pain. Next, I saw a radio DJ. A radio DJ plays songs on the radio. Finally, I met a boxer! A boxer fights and wins trophies!

We learnt...

- An engineer can make anything they want.
- An interpreter can speak 2 or 3 languages.
- A physiotherapist helps with back problems.
- A radio DJ has to wake up at 4 clock in the morning and spend 4 hours playing the radio.
- A boxer can win a trophy and a medal from fighting.

By Tanaisha

Spring at Cranford!

My New Year's Resolution

My New Year's resolution is to give up my fear, which is many, but mainly to be not be afraid of the dark. I thought of this because it gets dark when I sleep. This is also because I always bring a light when it is dark and I need to get used to it without a light.

Spring

In the tapestry of Spring's grand ballet,
Nature's orchestration unfolds in a vast array
Cherry blossoms delicately blush and bloom
petals swirling in a fragrant, colorful plume
Robins' melodies, a symphony in the air,
As meadows awaken, a spectacle beyond compare
Hope, a whispered promise in the morning light,
Each bloom, a chapter in Spring's enchanting rite.
With every petal, a stroke of life's brush,
As nature paints the world in a vibrant hush.
In the expansive theater of seasonal delight,
Spring unfolds, a majestic and boundless sight.

5 Poem About Spring! Saga

Spectacular Spring!

Nothing is so beautiful
as Spring!

Year 5
Crimson
Saga

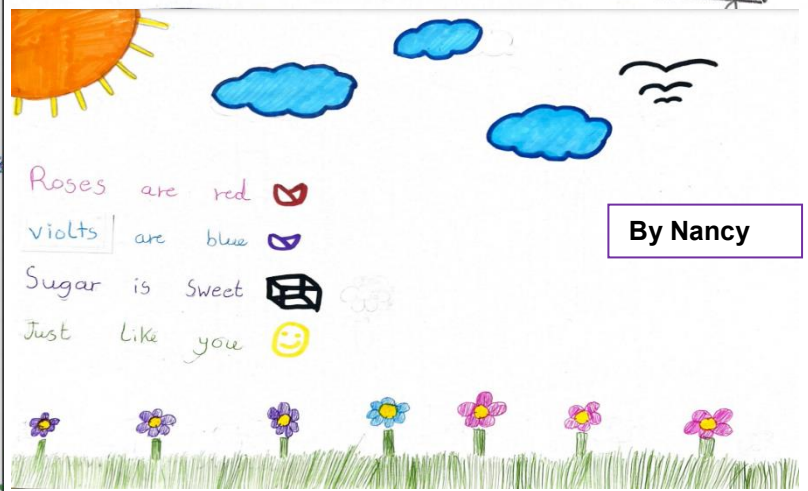

When weeds, in wheels, shoot long and lush
Thrush's eggs look little low heavens, through
Through the echoing timber does so rinse and writ
Now its time for all of us to sing.

Come

Come on, come on what are you waiting for
I will give the sprinkle spring tour
There is no time like spring
When life's alive in everything

I heard a thousand blended notes
While in a grove I sat reclined
In that sweet mood when pleasant thoughts
Bring sad thoughts to the mind

Spring Year

Roses are red
violets are blue
Sugar is sweet
Just like you
